**TO WHOMSOEVER IT MAY CONCERN**

This is to certify that we are using Humidity and Temperature Transmitters at different locations in our plant for monitoring and controlling the parameters. These transmitters are supplied by M/s. Infra Control Systems, Baroda. We have been using these instruments since last 3 years without any major hiccups.

They have also supplied us portable type temperature / humidity indicators. In year 2000, they had carried out calibration job of Temperature / Pressure /RH instruments as per ISO 9002 requirements. Same was done as per satisfaction.

The services offered have been very prompt and satisfactory.
